

MUCHEA VEAL REPORT 26TH FEBRUARY 2018

Reduced numbers came to hand for this week's Muchea veal sale to see a total yarding of 63 offered and sold. The quality was mixed throughout however due to a shortage in numbers, all classes were sort after under good restocker competition.

Local light bulls ranged between \$320 and \$400 while medium weighted calves ranged from \$400 to \$650.

Steer calves attracted good grazier support with a top price of \$655 with exporters operating on better drafts and graziers on the balance paying from \$350.

Limited heifers came forward and were in light condition to realise \$235 to \$370.
