

## **MUCHEA VEAL REPORT 17<sup>th</sup> October 2022**

Today agents yarded a total of 63 veal with Nutrien livestock selling 58 of them.

With the majority of the yarding this week being pastoral cattle, the demand certainly didn't disappear. Local graziers pushed hard to secure all lines of calves with any better bred types jumping \$50-\$80 head. Better bred Santa Bulls sold to \$800 and the heifer portion making \$770.
