WESTERN AUSTRALIAN MEAT INDUSTRY AUTHORITY

Muchea Cattle Report 02.11.2026

1392 liveweight and 9 veal / total 1401

Todays sale contained a high percentage of both local and pastoral weaner and yearling calves with fewer trade weights and cows compared to last week's sale while bulls were also penned in reasonable numbers. All of these factors resulted in attracting a larger buying field with restockers and feedlotters coming from all directions across the state. Values remained firm to slightly dearer across most categories while several consignments of well muscled Limousin and murray grey calves realized a top of 640c for steers and 532c for the heifers.

Local weaner steers in plain condition sold from 250c to 452c while better bred and conditioned steer calves started at 460c to 640c/kg. Weaner heifers with less cover ranged from 320c to 408c and with more cover and shine sold to a top of 532c/kg. Store yearling steers sold over a wide range from 298c to 504c and heavier weights from 380c to 488c/kg. Yearling heifers under 400kg were selling from 260c to 440c and with more weight and frame were making 350c to 450c/kg. Pastoral steer calves also sold over a wide range from 190c to 390c while yearling steers were mostly showing good fat cover selling from 400c to 436c/kg. Pastoral heifer calves ranged from 120c to 364c while yearlings were selling from 280c to 420c/kg.

Grown steers returned 330c to 450c while grown heifers made 370c to 420c/kg.
Store cows returned 100c to 308c while medium weights returned 290c to 358c and heavy cows sold from 314c to 342c/kg.

Young bulls back to paddocks started from 50c to 448c while export bulls returned 220c to 370c and heavy bulls returned 310c to 340c/kg.
