WESTERN AUSTRALIAN MEAT INDUSTRY AUTHORITY

Muchea Sheep Report 10.11.2026

Yarding 6,228/ sheep 3,729 / lambs 2,499

Numbers fell sharply by almost 4000 head with sheep and lambs in tight supply. What didn't fall sharply today were values on lamb and ewe markets, both recording gains. Along with the short supply there were also several seasonal restockers competing with processors on most lines of lambs and younger ewes contributing to those gains. large lines of well presented Crossbred and Merino hoggets were yarded and these were also selling well.

New season store lambs gained $8/10 selling from $109 to $182 while Light lambs were also up $8/10 making $174 to $215/head. New season trade lambs returned $201 to $250 lifting $10/12 and heavy lambs marginally dearer selling from $230 to $271/head.

New season store ram lambs were in tight supply with stores making $140 to $196 and with more weight and condition sold to a top of $251 while the few old season lambs still coming through were mostly carrying weight and sold from $183 to $240/head.

Merino wether hoggets were mostly mid weights ranging from $174 to $220 while store Merino ewe hoggets were selling from $159 to $181 and like last week, restockers competed on quality lines for breeding pushing values up to $267/head. Crossbred hoggets in good condition were selling from $170 to $260 and younger rams sold to a top of $262/head.

Mutton across the board lifted with boning ewes gaining $10/12 making $130 to $183 while medium weights were up $8/10 to return $170 to $235 and heavy ewes from $225 to $250 lifting $6/8/head. Heavy wethers ranged from $196 to $237 while mature rams sold from $120 to $228/head.
